

BÙI PHẠM MINH THÀNH

Fresher Front End Developer

With the knowledge I have learned, I want to become a fresher for the company, through which I have an overview of the web industry from which there will be clearer directions in the future.

Projects

• Website clone about a rock band

Personal project | 2022-2022

- Technology in use:
 - + Frontend: HTML/CSS/Javascript.
- Discription project: Build a one-page interface about a band
- My website is published at <https://bpmthanh.github.io/theBand/>

• Youtube website clone

Personal project | 2022-2022

- Technology in use:
 - + Frontend: HTML/CSS/Javascript.
 - + Framework: Tailwind.
- Discription project: The interface of a youtube website
- My website is published at <https://bpmthanh.github.io/youtubeSmall/>

• Shopee website clone

Personal project | 2022-2022

- Technology in use:
 - + Frontend: HTML/CSS/Javascript
- Discription project: The interface of a shopee website. This project has a drawback that it is still not responsive.
- My website is published at <https://bpmthanh.github.io/shopeeWeb/>
